Comments on 10 year plan

To the Postal Regulatory Commissioners

I would like to express my strong opposition to the 10 year plan for the USPS presented by Mr. DeJoy. I find it is loaded with glowing verbiage, but at its heart, guts the Post Office services all of us rely upon. I use it for letters, packages, medicine deliveries and shipping items to my daughter overseas. I beg the Postal Regulatory Commission to NOT approve this disastrous proposal which will not provide the excellent postal services I've relied upon in the past, but eliminate them for the future.

Sincerely, Jenell Mahoney

Bakersfield, CA 93312
